Professional Experience

GoodRx

Sr. Manager, Platform Design
2023–Present

Manager, Design System
2022–2023

Lead Designer, Design System
2021–2022

Responsibilities

- Leading the team through building, maintaining, and evolving shared standards across Web, iOS, and Android. This includes design systems, site-wide navigation, and the end-to-end UX + information architecture for the Mobile Apps.
- Partnering with cross-functional senior leadership to maintain a high bar for UI/UX quality, advocate for the design team's needs, and drive organization-level process change.
- Acting as a technical subject matter expert for the Product Design team, strengthening collaboration with engineering, managing tooling/process, and driving adoption of new technologies, including AI.
- Shepherding the growth of the designers on my team through meaningful relationship building, clear accountability, and bespoke growth paths.

Morningstar

Lead Designer, Design Systems
2021

Senior Designer
2019–2021

Designer
2014–2019

- Co-leading design work on the Morningstar Design System from initial rollout, through multiple system-wide refactors, and design tooling transitions.
- Leading design work on the Morningstar Base Charts library, a modular data visualization system of standard and proprietary charts supporting everyone from individual to institutional investors.
- Building up the engineering skills of designers in the organization through co-leading trainings and developing curriculum.

Education

University of Illinois at Chicago
2010–2014

B.des in Graphic Design
Summa Cum Laude
